

MAJIO

**MALO (MALO) means small and
it is a brand dedicated to children**

The liberty of colors is like a child's play, diversity stimulates the senses, bursts the imagination that makes childhood magical. Thoughtfully chosen color combinations are affecting children's senses and trigger the development of synapses. All models of MALO children's clothes celebrate the free movement and a sense of comfort. All products are inspired by the children's imagination and created to positively influence the aesthetic taste that has been formed since they were little. They are handmade from fine fabrics in limited quantities.

**“And the best is hardly good enough
for the children”**

— Goethe

MALO for little ones / Malo is the Sun when you look at it from the ground, so MALO (small) that it can fit in the palm. Its every little gleam warms your hearth so much that you feel the heat at every step, shining like a little drop of water that makes a huge lake. One musical note is the beginning of some great song. Once, everything beautiful was small, so it grew big out of love.
